

YOUR HELP IS NEEDED!

The City of Livermore is applying for Land & Water Conservation Funds to renovate the “Caboose Walking Park” at 650 Depot Street.

Our plans are to paint and letter the caboose, add a park sign and a rain deck for the children’s enjoyment.

We need your support to be able to get these funds. Please fill-out a form and leave it with the front office. It will help our cause.

The more project concurrence forms we receive the better our chances are to be awarded the funds to complete the project. Thank you in advance for your support.

You are invited to a public meeting concerning this application to be held on April 9, 2015 at 7:30 p.m. at city hall. Thank you.
